

Components of FarmLink App

1. Farmer/producer side:

- a. Bottom Nav Bar (not necessarily in same order):
 - i. Profile (not necessarily in same order):
 1. Review/edit Personal Details (Name, Number, Address, ATN?)
 2. Delete Account
 3. Review Sales Volume(weekly/monthly/annual/custom)
 4. Review individual sales (recent ones first, 5-10 at a time, lazy loading??)
 - ii. Active Listings:
 1. Farmer/producer can create, publish ,and edit or delete new listings with produce details, photos, price, and pickup information.
 2. Farmer/producer can actively mark the listing as locked-in after some chat/negotiations with the individual/charity.
 3. Active Listings will be declared successful only when the final QR procurement code from individuals is scanned by the farmer.
 4. Active Listings will be declared available again (sale unsuccessful after lock-in) when either farmer/individual cancels lock-in status from their end.
 - iii. Ongoing sales:
 1. Can mark as locked-in/cancelled
 - iv. Chat (with charity/volunteer):
 1. Can mark listing as locked-in/cancelled for particular procurer from chat.
 2. Able to attach pdf, photos(formats to be decided based on encoding-decoding schemes).
 3. Call option that takes the caller directly to the caller pad with number pasted.
 4. Able to reply to specific messages like WhatsApp UX.
 - v. Notifications:
 1. Individual/charity has contacted you? Allow chat or not (Green Tick vs Red cross, to the right side, like Facebook Friends)
 2. Sale has been made successful/locked-in/cancelled
 3. Based on sales, some subsidy can be made available to the farmer???
 - vi. Stats
 1. Review completed sales, total revenue, and total produce sold.
 2. Review sales trends by weekly/monthly/annual/custom periods.

2. Charity/volunteer side:

- a. Bottom Nav Bar (not necessarily in same order):
 - i. Profile (not necessarily in same order):
 1. Review/edit Personal Details (Name, Number, Address, ATN?)
 2. Delete Account
 3. Review Procurement Volume(weekly/monthly/annual/custom)
 4. Review individual procurement (recent ones first, 5-10 at a time, lazy loading??)
 - ii. Available Listings:
